To whom it may concern,

Reference Letter for Ikore International Development Limited

GAIN is currently working with Ikore International Development Limited to conduct a Mapping and Needs Assessment of Businesses, Business Associations and Cooperatives in the Rice, Maize, Cassava and Orange-fleshed Potato Value Chains in Nigeria. Ikore is deploying both qualitative and quantitative methods to identify technical and non-technical gaps and limitations of these businesses regarding accessibility, affordability, and the inclusion of women and youth in value-added agriculture.

Ikore emerged the best from a highly competitive process and so far they have completed work around the following areas;

- Design of research methodology
- Secondary data collection
- Design of pre-test tools

For all the completed tasks Ikore has met the expectations and has delivered quality outputs. Based on the ongoing cordial relationship as well as the output so far, we are quite confident that Ikore will deliver on the GAIN job. Should you have any questions about our experience, please feel free to contact us.

Sincerely,

Signature :
